

Mountnessing C of E Primary School
Sunflower Competition!

Dear Parents,

Today all the children have planted sunflower seeds for our school competition. The children have the responsibility of taking their seed home to look after, water and nurture.

We will have a half time check-up during maths week (week beginning 18th May) to see how well the sunflowers are doing.

The children will then need to continue to give their sunflower seed lots of T.L.C. over the half term holiday and remaining weeks of school before we compare and measure who has grown the tallest sunflower in July – we will give you the exact date nearer the time!

Look after those sunflower seeds well children and good luck to you all!

Miss Hill
