Me, Myself & I

CHESTNUT CLASS
Year A Autumn Term

As scientists we will be talking about how we look after our body. What food we need to eat to stay healthy. What we need to do to keep our skeleton fit and strong.
We will look at our 5 senses and discuss why we need all of them and we will carry out experiments to test them.

As **Geographers** we will look at where we live and learn about our local environment. Look at routes to school.
We will look at where we have been on holiday and how we got there.

In PHSE we will talk about our emotions- how we feel in different situations and how we can look after each other.
We will also be thinking about being me in my world.

In History we will be looking at the historical concept of family trees and what they show us. We will create our own family tree and discuss big events that have happened in our lives. We will study photographs of ourselves and how we have changed over the years.

As Musicians we will be using instruments to make 'skeleton sounds' – loud and quiet sounds.
We will also be making sounds to accompany the song 'Dem bones'.

As **artists** we will be looking at famous portraits and we will be doing our own self-portraits and portraits of each other using a variety of resources.
We will also use different body parts for printing to create unique pattern,

In DT we will plan, design and make a healthy lunch that we will eat in school.
We will also undertake research to see how healthy packed lunches are within school.

Literacy:
Stories with Memories *(Elfa and the Box of Memories)*
Diary writing
Labels and captions
Information writing (on how to stay healthy)
Marvellous Me
Maths
See separate maths curriculum

For indoor **PE** we will be focussing on dance and how our bodies move.
For outdoor PE we will be developing our throwing and catching skills.

In **RE** we will be focusing on special things in nature. We will go on a nature walk around the school and take pictures to bring back and discuss as a class

In computing we will be using the iPads to take abstract pictures of body parts. We will also be looking at how we can edit and print these pictures.
