

# Where's Wally?

In **English** we will read and write: diaries, biographies about inspirational people, travel stories, explanations and poetry.

As **scientists** we will be learning about plants and their diversity across the world. We will explore how the life cycle plays a role in pollination, seed formation and seed dispersal. We will also be looking at the water cycle, labelling the process and understanding how it effects the environment.

In **computing**, we will be communicators and use email systems to communicate safely on the internet. After half term we will be route planners using Google maps and Google earth.

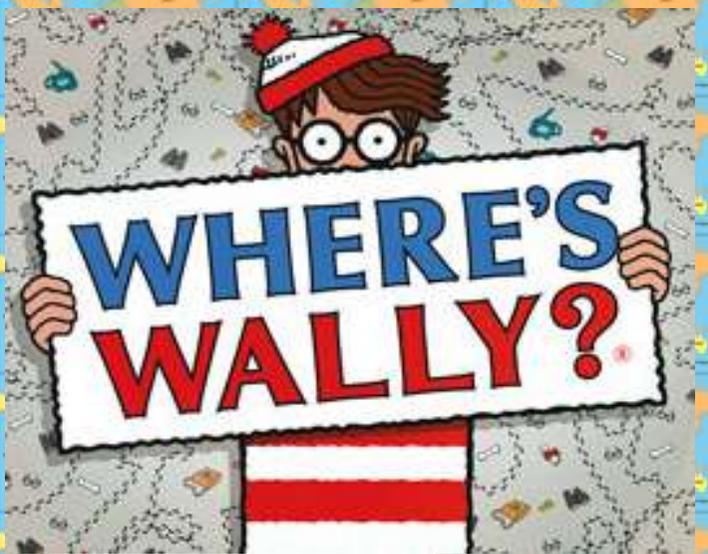

In **RE** we will study worship and devotional practises in Hinduism as well as look at the birth of Jesus.

In **PHSE**, we will be focusing on 'Being me in my world' and 'celebrating difference'.

In **PE** will be learning about dance from different cultures and learn skills needed to play football and netball.

## Willow Class Year A: Autumn Term

A geography focussed topic extending our knowledge of where places are in the world and how they've changed over time. We will learn to identify countries by their flags, national symbols and anthems.

As **geographers**, we will be using maps and atlases to help us locate continents, countries, counties and capital cities.

As **historians**, we will be looking at how places have changed over time and linking this to aboriginal art and the 'Just So Stories.'

As **artists** we will be producing a variety of landscapes and skylines using different artistic effects. We will use water colours, diffusing and marbling to create a range of interesting backgrounds.

As **designers** we will understand and apply the principles of OS maps by creating our own 3D map. To link with our science investigations, we will also be designing and making weather stations.

As **musicians** we will be exploring music from different countries and cultures. We will study the origin of the music and listen and appreciate a range of examples.

In **French** we will learn new vocabulary, develop pronunciation by speaking in sentences and understand the grammar used.
